Art Journaling

An art journal is a book kept by beginners and seasoned creatives alike as a visual and sometimes verbal record of their thoughts and ideas. Art journals generally combine visual journaling and writing. It is the same as a written journal, except that it incorporates colors, images, patterns, and other materials to create finished pages. Every imaginable style, media, and technique is used by art journal creatives. Some art journals have a lot of writing, while others are purely filled with images. Not only is Art Journaling a form of creative self care, but is also a way to connect to their inner-creative self and an opportunity to explore where you see yourself now and in the future.
